

CATERPILLAR

Caterpillar offers a complete range of road construction machines supported by an outstanding dealer network and financial incentives. The product offering includes rotary mixers, track-type tractors and loaders, motor grader, soil compactors, cold planers, asphalt pavers, asphalt compactors and excavators.

Caterpillar has acquired decades of experience in the road construction industry and understands how success depends on the reliability of the machines used in all environments. The machines are also designed for ease of operation and maintenance, and maximum components commonality. This enables the owners to reduce training costs and ensure consistent quality of performance from operators. Each machine comes with a range of options, which enables to customize the machine to the job in hand.

For more than 80 years, Caterpillar has been making progress possible and driving positive and sustainable change on every continent. With 2006 sales and revenues of \$41.517 billion, Caterpillar is the world's leading manufacturer of construction and mining equipment, diesel and natural gas engines and industrial gas turbines. The company also is a leading services provider through Caterpillar Financial Services, Caterpillar Remanufacturing Services, Caterpillar Logistics Services and Progress Rail Services.
